IS POLAND A SKIING DESTINATION?

While Poland may not be as mountainous as the Alpine countries, it offers a wide range of opportunities for skiers. From families with children and beginners to intermediate and advanced winter sports enthusiasts—there's something for everyone.

Poland's largest ski resorts, such as Szczyrk Mountain Resort, Zieleniec Ski Arena, and Kotelnica Białczańska, stand out with their modern infrastructure and a variety of additional attractions. Advanced snowmaking systems and state-of-the-art lifts make Polish ski resorts increasingly competitive on the European scene.

Poland is home to nearly 300 ski resorts, varying in size, slope length, and facilities.

The 35 largest ski resorts are located in the southern part of the country, across three main regions: Lower Silesia, Lesser Poland, and Silesia.

In this guide, we focus on the 10 biggest ski resorts in Poland:

- 🏔️ **Szczyrk Mountain Resort - 36 km**
- 🏔️ **Zieleniec Ski Arena - 23 km**
- 🏔️ **Kotelnica Białczańska - 18 km**
- 🏔️ **Kasprowy Wierch - 16 km**
- 🏔️ **Ski Arena Szrenica - 12 km**
- 🏔️ **Czarna Góra Resort - 12 km**
- 🏔️ **Jaworzyna Krynicka - 9 km**
- 🏔️ **Pilsko - 8 km**

2	Zieleniec Ski Arena	Lower Silesia	Duszniki Zdrój	23 km	265 m
3	Kotelnica Białczańska	Lesser Poland	Białka Tatrzańska	18 km	235 m
4	Kasprowy Wierch	Lesser Poland	Zakopane	16 km	960 m

MAIN RANKING CRITERIA:

- The ranking includes the largest ski resorts based on the total length (km) of prepared ski runs (blue, red, and black). Ski touring and freeride routes are not counted.
- The ski runs in a resort must be interconnected by a network of lifts and must not require bus or car transfers.
- If two resorts have a similar total ski run length, the elevation difference (the vertical drop between the highest and lowest points of the resort) is considered. Resorts with a greater elevation difference are ranked higher.
- Only resorts that were open for at least 30 days during the 2022/23 season were included in the ranking.

Additionally, in the skicrown.eu ski app, we have introduced the TOP Region ranking, which lists the largest ski resorts based on the total number of ski run kilometers in the major regions of each country.

Szczyrk Mountain Resort is the largest and one of the most modern ski resorts in Poland, located in the Silesian Voivodeship, within the Beskidy Mountains, at an altitude ranging from 590 to 1,250 meters above sea level.

The resort is situated in the picturesque valley of Szczyrk, a popular winter destination for skiers and snowboarders. Nestled on the slopes of Skrzyczne (1,257 m) and Małe Skrzyczne, Szczyrk Mountain Resort offers an extensive ski area, modern infrastructure, and a variety of slopes.

Thanks to significant investments in recent years, the resort now features new ski lifts, expanded slopes, and an advanced snowmaking system, making it one of the top ski destinations in Poland. Szczyrk Mountain Resort attracts both families with children and experienced skiers, offering numerous amenities and attractions.

The resort boasts a total of 36 km of ski runs catering to different skill levels:

-  22 km of blue runs – ideal for beginners and families with children.
-  10 km of red runs – perfect for intermediate skiers seeking a challenge.
-  4 km of black runs – designed for advanced skiers, including the famous "Bieńkula", one of the most challenging and well-known runs in the region.

The Szczyrk Mountain Resort ski complex is connected to the Central Sports Center (COS), which is now integrated into the lift network. Additionally, thanks to a shared ski pass with Beskid Sport Arena Szczyrk, skiers can explore even more varied runs. However, transferring between these resorts requires a ski bus or car transport.

Szczyrk Mountain Resort features a modern lift system with a total of 9 lifts, including:

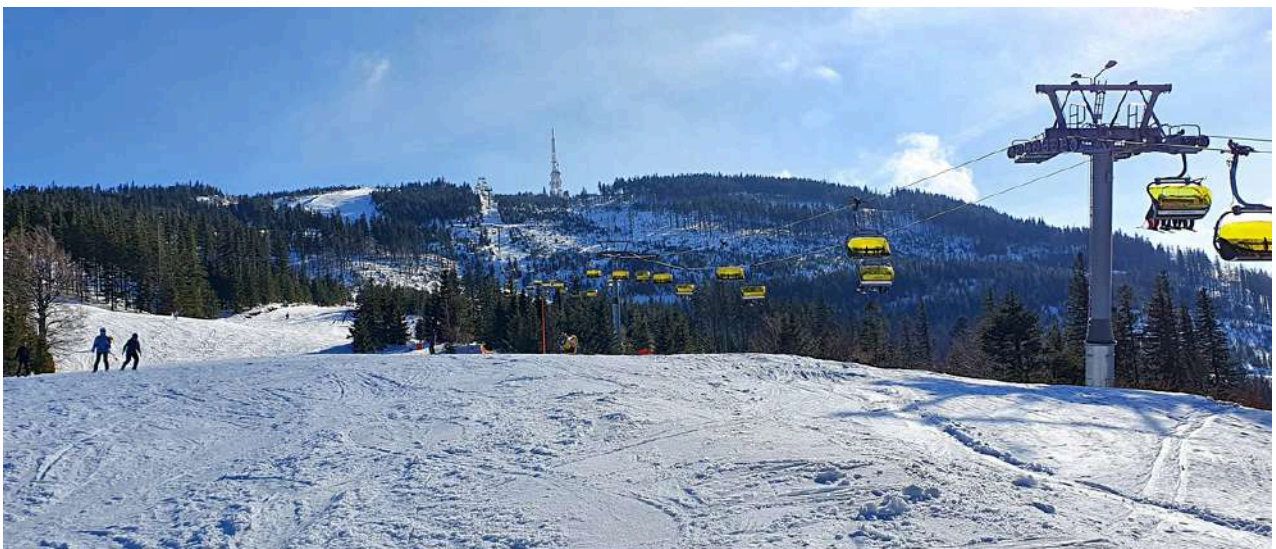

-  1 gondola
-  5 chairlifts
-  3 T-bar lifts

The largest lift in the resort is the 10-person gondola "Szczyrk-Hala Skrzyczneńska", providing fast and comfortable access to the highest sections of the ski area. The main chairlifts include the 6-person "Zbójnicka Kopa" and "Solisko" lifts, known for their high capacity, heated seats, and wind covers, ensuring a comfortable ride even in challenging weather conditions. Recently, a new snowmaking system was built at Hala Skrzyczneńska, featuring a large reservoir with a capacity of 100,000 m³. This system supplies over 350 snow guns and lances, ensuring excellent snow conditions throughout the season.

Szczyrk Mountain Resort is also a paradise for freestyle enthusiasts. The "Snowpark Juliany" is one of the best snowparks in the Beskidy Mountains, offering a variety of obstacles such as: 🛠️ Jumps, boxes, rails, and other freestyle elements for skiers and snowboarders. 🏆 Regular freestyle competitions and training sessions, making it a popular gathering spot for riders of all levels.

Although Szczyrk Mountain Resort is primarily known for its well-prepared slopes, it also offers great freeride opportunities. The Skrzyczne and Małe Skrzyczne areas provide several off-piste routes, especially after fresh snowfall. Steep slopes and tree runs create ideal conditions for those who enjoy skiing beyond the groomed trails.

Several ski schools operate within the resort, offering lessons for both children and adults, led by qualified instructors. Additionally, Szczyrk offers child-friendly facilities, including conveyor belt lifts and snow play areas, making it a perfect spot for a winter family getaway.

At the base station of the 10-person gondola, visitors will find a large multifunctional building that includes: ticket offices, equipment rental & service, ski shop, storage lockers.

The resort also provides a parking area for approximately 700 cars, ensuring easy access for visitors.

Szczyrk Mountain Resort offers a vibrant après-ski scene, with numerous restaurants, bars, and mountain lodges serving both regional and international cuisine.
